3:30-4:00	Office Hours, Media Center Hour, and Test Make-Up				

Highlights of the High School Schedule:

- 10 am start time to address the need for teenagers to sleep a little later
- 45 minute class times (shorter than in-school learning) to allow for more flexibility in student day while maintaining an expectation of 3 hours of work per week. This includes at least 20-30 minutes of synchronous learning.
- 30 minute office hours per course per week offers students the opportunity to have “live time” with their teachers outside of class.
- A “Flex Block” on Wednesday to invest in our extraordinary community, including activities like holiday celebrations, assemblies, grade-level meetings, and clubs.
